## Self-introduction

<p>I am a motivated person and I respect others and work well with them. There have been many group assignments during my time at university, and my teams have always been very harmonious and work efficiency.</p> <p>I enjoy teamwork and I think that thinking together and helping each other can make work more fun and meaningful. I am willing to listen to other people's opinions and coordinate my tasks according to other people's suggestions and results. At the same time, I have strong learning ability and adaptability, and have the ability to think independently. I have good teamwork ability and stress resistance, and I am responsible and willing to work for the team.</p> <p>I am very much looking forward to working in the company, because the projects are excellent and I am eager to join and learn to improve myself.</p>
